Ford Tourneo Hearsette®

Robust, Agile and Powerful

The versatility of a modern and innovative design introduces further ground clearance and better balance all whilst retaining assertive agility: powered by its petrol or diesel motor. This, coupled with a spacious and dynamic interior, promises an all-around efficient driving experience.

Engine & Dimensions

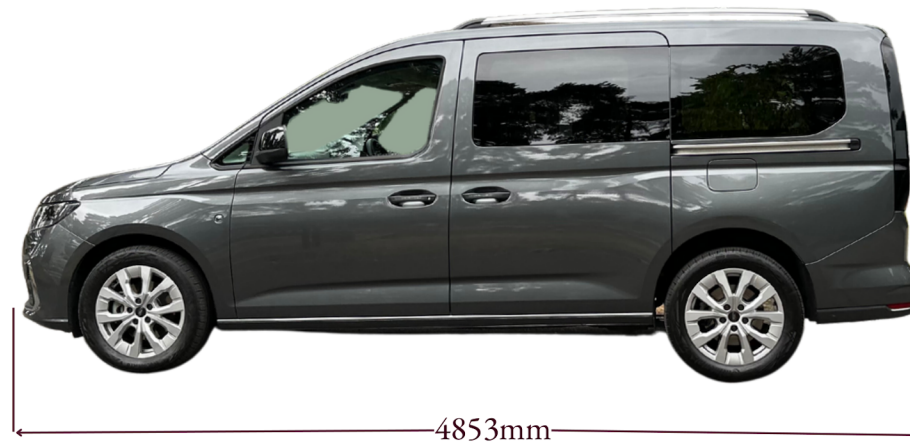

Engine: Eco Boost Petrol Vehicle

Transmission: 6 Speed Manual
Drivetrain: Front Wheel Drive
CO2 Emissions: 146-156 g/km
Fuel Consumption: 48 - 49mpg

Engine: Eco Blue Diesel Vehicle

Transmission: 6 Speed Manual
Drivetrain: Front Wheel Drive
CO2 Emissions: 128-145 g/km
Fuel Consumption: 54 - 61mpg

External Dimension

The Deck

Wilcox understands the need for something that just “does it all”, and the Tourneo meets the brief. With this Hearsette® being the widest and longest on the UK market, there is ample space for use as a regular 5 seater, 3 person with 1 stretcher, 2 person and 2 stretchers.

In the event of a small coffin of up to 905mm, there is the possibility of two adults being able to accompany the coffin in the rear on either side of it. This offers true versatility and a respect for the bereaved’s wishes.

The multi-use cabin space is easily configured using simple lock-down systems and a foldable deck system. There is extensive storage under the deck itself and under seats, which are optional. The front cabin is well designed for taller drivers due to the space created by the construction shape.

The Deck

The Wilcox Hearsette® deck is brilliantly optimised to provide flexibility and practicality for Funeral Directors.

- The low deck allows the Funeral Director to roll stretchers on with little effort.
- The seamless closing of the deck demonstrates technology with no compromise on design. Magnetic stops engineered into the deck ensure the folding bumper protector stays in place when folded.
- Inserts optimised for coffin stops and stretcher clamps.
- Ample space to fit two coffins side by side

Deck Configurations

Established since 1948

With a focus on luxury and high-quality, Wilcox has crafted funeral vehicles for 75 years. Their largest selection of new and used funeral vehicles draws on the grace and renowned heritage of Bentley, Jaguar and Mercedes; and the formidable tech of Volvo, Nissan, Peugeot and Ford.

From Wigan and The Midlands, with love.

With over 70 staff across two locations, and second and third generation family members, Wilcox provides an innovative and visionary nod to the future with the Nissan All- Electric, and the Mercedes Petrol Hybrid.

A British contender on the international stage.

The core British styling fused with savvy tech has propelled Wilcox all over the world
