

**75 Years of Timeless Excellence**

Preserving Tradition, Past,  
Present and Future

# The Creation of Wilcox

Join us as we take you on a journey through the rich history and remarkable achievements of Wilcox Limousines. Explore our past as we delve into the origins of our company and the milestones that have shaped our success.

The roots of Wilcox Limousines can be traced back to our Grandmother and Grandfather, May & Bill Wilcox, visionary entrepreneurs who laid the foundation for our esteemed company. May & Bill Wilcox meet aged just 17 & 15 years old. Both are hard working and determined to make a better life for themselves. Bill is already working in Sales as a Hot and Coal Man (Home & Colonial Stores Sales Man). They dream of running their own business and marry five years later in 1939 with Bill then joining the war.

# The History of Wilcox Limousines

Eagle's commitment to excellence became evident through the production of over 1,000 Jaguar-based Hearses and Limousines. Notably, our vehicles were selected for the funerals of esteemed figures such as Princess Diana, Princess Margaret, and The Queen Mother, a testament to the trust placed in our craftsmanship during moments of profound significance.

# Mercedes E-Class Fleet

Underpinned by the Mercedes Benz renowned technology and styling, Wilcox are proud to present the Wilcox Mercedes E-Class Fleet, designed using CAD. The carbon fibre design has been upgraded to a sleeker style, all packed with tech and comfortable interior.

# Bentley Flying Spur

Whether high performance and effortless at heart, or dynamic and understated as a funeral vehicle, the Bentley Flying Spur Hearse is undoubtedly luxurious. Wilcox brings you the quintessential British artisanal craftsmanship and exhilarating power. With three driving modes-Comfort, Sport, Bentley- and the ability to personalise pre-sets, the Bentley Flying Spur Hearse is a truly versatile vehicle to be enjoyed.

# Nissan All Electric

Constructed on the Nissan Leaf Tekna chassis, the Wilcox Nissan Athena Hearse is the pioneering affordable and fully electric vehicle for future-thinking Funeral Directors, crafted from recycled carbon. The vehicle finish is immaculate: there could be no smoother fusion. The characteristic angular front, smooth grill-less bumper and subtle blue highlights truly give it the electric credentials.

# Volvo S90

With no compromise, Wilcox offers the Scandinavian experience in partnership with Nilsson Volvo Hearses and Limousines. New methods of extension and welding paired with CAD design have been introduced to secure maximal rigour.

The Hearse is available in a 3-door and a 5-door version, extended 750 mm and 1340 mm respectively. There are a wide variety of options to choose from, all depending on each customer's needs and requests.

# Ford Tourneo Hearsette<sup>®</sup>

The versatility of a modern and innovative design introduces further ground clearance and better balance all whilst retaining assertive agility: powered by its petrol or diesel motor. This, coupled with a spacious and dynamic interior, promises an all-around efficient driving experience.
